

# CALL FOR PAPERS

System Dynamics Winter Camp 2011 (SDWC 2011)  
**University of Texas McCombs School of Business and  
Texas A&M University Mays Business School**  
January 7-8 2011, Austin, Texas, USA

## LOCATION

Austin, the state capital of Texas and home to the University of Texas still maintains the idiosyncratic, local charm of a small town while also providing the excitement of a modern, cosmopolitan center. In addition to various historic sites to explore (Austin was once the capital of the Republic of Texas), it is also the live music capital of the world. There are also numerous high technology electronics, software, and manufacturing centers to visit. Dell Computers is headquartered in the Austin area known as the Silicon Hills, which is the second largest concentration of electronics firms in North America.

## SCOPE AND TOPICS OF INTEREST

Applications in any area of system dynamics are welcome. Business and policy studies, applications in the sciences, as well as theory and methodology are all of interest. The goal of the SDWC is to stimulate communication among the top academics and practitioners in the field through presentations of the highest quality cutting-edge work.

## SUBMISSION OF ABSTRACTS OR MANUSCRIPTS

Please submit either an extended abstract (250+ words) or manuscript. Works-in-progress are both acceptable and encouraged. Send an electronic copy of the manuscript or an extended abstract, preferably in Adobe Acrobat PDF format (*please set file settings so that we can copy from it*) to: David N. Ford | Department of Civil Engineering | Texas A&M University | [dford@civil.tamu.edu](mailto:dford@civil.tamu.edu) | Phone: (979) 845-3759

Please look for confirmation of abstract's receipt within two weeks of submission. [Updated information will be posted on \[www.sdwc.info\]\(http://www.sdwc.info\) as it becomes available.](#)

## REGISTRATION AND ACCOMMODATION

The Camp will be held in the Texas Business School, which has provisions for both overhead and multimedia presentations. Conference fees will be \$100 per person (this will be \$50 for students with certification by their professors). Arrangements are being made for discount rates for accommodations in downtown Austin for conference participants.

## IMPORTANT DATES

October 15, 2010, Submission of extended abstract (or manuscript)  
November 15, 2010, Notification of Acceptance

Best Regards,

Edward Anderson

David Ford
